Important message for Parents.

It is regarding the 'Registration card correction (if any) for class 9th/11th students.

Dear Parents,

Your ward's registration was done purely on the basis of documents (TC, Birth certificate, Application form submitted by you). LOC(List of candidates) for registration in 9th/11th) was prepared accordingly. After registration process you were also called for signatures on the registration document.

Now, CBSE has uploaded registration cards on the website and this requires the signature of parents. CBSE will allow changes in the details of students on the basis of request of parents (provided that supportive documents are produced).

So, worthy parents are requested to visit the school for checking the details and for signatures on the registration card of their wards. This document will be basis for all future CBSE examinations.

For any query, parents can contact the class teacher of their wards. Some of you may visit school on next Sunday so that time this job can be done.

Regards,

Principal
